3 and 4 July 1949

1. Soviet NCOs wearing red-bordered, black epaulets, were on traffic control in SOPRON (P 48/X 63) from the early morning of 3 July to 4 p.m. on 4 July 1949. Traffic signals were given with red-white flags in daytime and with red-white lamps at night.

3 and 4 July 1949

2. a. About two hundred trucks, coming from the direction of SOPRON-KOEVEDS (P 48/X 72), passed through SOPRON, heading for VIENNA. About 90 percent of the trucks were three-ton vehicles and about 50 percent pulled 1.5-ton trailers. The motor vehicles appeared to be badly worn.

b. The trucks were loaded with quartering equipment (beds, furniture) and other material, including empty barrels. No Soviet troops were observed, except the loading crews (very young soldiers).
